

TRIGLAV VSR

Portable 4-station virtual shooting range

The set consists of:

- Integrated unopenable main module (case).
- 4 x Glock17 replica, partly metal, with realistic weight and electric recoil, built-in trigger-fired laser emitter with BLE5.0 communication mode and continuous tracking of targetting.
- Electric stun gun replica.
- 4 x interchangeable magazines for handgun replicas with high-capacity battery.
- 2 x long gun replica with shock-triggered emitter and BLE5.0 communication and aiming tracking.
- 4 x shock emitters for gas-powered airsoft gun replicas.
- Training software and Windows 11 license.
- Wireless keyboard and remote controller.
- Optional: mobile projection screen 400 x 225 cm, weighing 12 kg.

The training software:

- Sports according to the IPSC and IDPA standard.
- Sports for targets compliant with ISSF.
- Military for standard combat targets.
- Training in the use of a stun gun.
- Laser sight and flashlight simulation.
- Interactive for assailants with a hostage.

Features:

- The ability to configure training parameters for each lane separately, including the selection of target schemes, distance, posture, time limit or bullet limit, type of weapon, type of terrain, weather conditions, time of day, additional special effects, etc.
- Conducting a weapon zeroing procedure.
- Action replay with aiming point tracking.
- Generating individual scorecards in PDF file.
- Archiving results summaries.
- Organizing online shooting competitions.
- Activity log for instructor work records.
- Capabilities for editing own training scenarios.
